Printer Disconnected!

c. After setting up the printer, check your computer if the printer has installed or not.

Go to the "control panel"> click "Device" > click "Printer & scanners", and then you will find the printer "IP-801", if you can find "IP-801" and print labels successfully, that means you have set up the printer successfully.

If you can't find the printer you have installed, please restart your computer and printer then try again.
